

Evidence - How do we know it made a difference in 2014-15?

Data Analysis - Narrowing the Gaps with Pupil Premium at Key Stage 1

Our school data shows that the use of pupil premium to support the attainment and achievement of pupils eligible for Free School Meals in the last 6 years has had a **positive impact** and **is succeeding** in 'narrowing the gap' between FSM & non-FSM.

RAISEonline Data shows that:

- ☐ **both attainment** (end of Key Stage 1) **and achievement** (those achieving expected progress i.e. 2 levels) are **above National averages** and that APS (Average Point Scores - level and sub levels e.g. 3c are converted to point scores) are **significantly above National Averages in both Maths and English.**
- ☐ **100%** of pupils in the **FSM group achieved the expected progress in both English and Maths and are above National averages.**
- ☐ **100%** of pupils **attained or surpassed level 2 in both English and Maths.**
- ☐ **50%*** of pupils in the **FSM group attained L2a in English** compared to **61%** in the **non-FSM group** which is significantly higher than the National average of **22%.**
- ☐ **33%*** of pupils in the **FSM group attained L3 in Maths** compared to **67%** in the **non-FSM group** which is significantly higher than the National average of **25%.**

***The School Improvement Plan has identified this as a target for intervention.**

Trends

The percentage of children attaining level 2 or above in English and Maths in the previous two years is as follows:

2014 - 100% of pupils in FSM groups achieved L2+ in both English and Maths compared with a National average of 80%.

2015 - 100% of pupils in FSM group achieved L2+ in both English and Maths compared with a National average of 85%.

The percentage of children achieving expected progress in **English**:

2014 - 88% of pupils in FSM groups compared with a National average of 85%.

2015 - 100% of pupils in FSM groups compared with a National average of 90%.

The percentage of children achieving expected progress in **Maths**:

2014 - 100% of pupils in FSM groups compared with a National average of 85%.

2015 - 100% of pupils in FSM groups compared with a National average of 89%.
