

Alex has put these amounts in order from smallest to largest.

65%

0.69

 $\frac{17}{25}$ $\frac{14}{20}$

72%

0.75

False

$\frac{17}{25} = 68\%$ and $0.69 = 69\%$ so these two should be changed round.

65% $\frac{17}{25}$ 0.69 $\frac{14}{20}$ 71% 0.75
